

Drunken Jenga

of Players: 2-5

Equipment: Blank Jenga

Difficulty Rating: Easy – It's Jenga, who hasn't played that!?

Danger Rating: Medium - It depends how brutal the rules are...

Set-Up:

If you are playing with a blank set everyone grab a marker and write one rule or thing to do on one side of each block. Setup exactly like normal Jenga.

Game Play:

Play Jenga! Buuuuuut...

... when you successfully pull a block you either do what the rule/thing says on the block (example: drink 4, make out with your neighbor, etc.) or you write a new rule on one of the sides of the block. Or you can do both, haha it doesn't really matter.

If you happen to be the unlucky one to cause the Jenga Tower of Doom to fall, then you must finish your drink!

What was the best rule/thing that came up?
